- If making selections (e.g., Subheadings, etc.), use the Send to Search Box feature to see PubMed records with those specifications.
- Select PubMed under the Links menu to retrieve all records for the MeSH Term.
- Select NLM MeSH Browser under the Links menu for additional information.

1: Consensus Sequence

Links

A theoretical representative nucleotide or amino acid sequence in which each nucleotide or amino acid is the one which occurs most frequently at that site in the different sequences which occur in nature. The phrase also refers to an actual sequence which approximates the theoretical consensus. A known CONSERVED SEQUENCE set is represented by a consensus sequence. Commonly observed supersecondary protein structures (AMINO ACID MOTIFS) are often formed by conserved sequences.

Year introduced: 1991

Subheadings:

☐ drug effects ☐ genetics ☐ immunology ☐ physiology

☐ Restrict Search to Major Topic headings only

☐ Do Not Explode this term (i.e., do not include MeSH terms found below this term in the MeSH tree).

Entry Terms:

- Consensus Sequences
- Sequence, Consensus
- Sequences, Consensus

Previous Indexing:

- Base Sequence (1983-1990)
- Molecular Sequence Data (1988-1990)

See Also:

- Conserved Sequence
- Amino Acid Motifs
